

JULY 2021

VIBRANT AND GROWING!

Despite a tense cultural and political landscape, 2021 has overall rewarded steadfast investors. The positive markers we noted six months ago remain... low interest rates, unemployment trends, investor cash, Covid vaccines, and corporate earnings and projections.

We're also pleased to report that life at Vision Financial is vibrant and growing. We're so grateful for the new clients that you continue to refer to us. A growing client base, and growing account values mean that we've grown the team to serve you better.

Evan Fennema and Mitchel Takens are both Financial Advisors who are already making an impact with serving clients and providing much-needed analytical support. Beckie Jenks is helping to better distribute the ever-growing administrative workload as a Branch Operations Assistant. More information on Evan, Mitchel, and Beckie can be found on the Vision Financial website.

Evan Fennema, Beckie Jenks, & Mitchel Takens

The financial markets continue to present challenges and opportunities. Our ongoing aim... with a growing team to accomplish it... is to be your trusted source for financial advice, coaching you toward achieving your goals.

A handwritten signature in black ink that reads 'John'.
